Our service range

Components supply

We specialise in providing OEM direct line feed delivery from a vast selection of fasteners and fixings, PPE and MRO equipment.

Vendor Managed Inventory

Profit from more efficient ordering, reduced inventory and logistics processing costs, better replenishment and demand planning with VMI.

Kitting & Sub-Assembly

Hand-picked, pre-packaged, pre-labelled and sub-assembled industrial components and fasteners ensure component quality and production efficiency.

Third Party Logistics

3PL bundles assembly, packaging, warehousing and distribution into an integrated solution for planning, coordinating and delivering inventory.

MRO vending solutions

Acorn Repono offers remote, realtime inventory management for MRO shop floor consumables, along with tool and PPE supply.

Our mission

Acorn offer bespoke supply chain solutions, with an extensive range of inventory management services tailored to your manufacturing needs

Our services boost your back-end logistics and inventory infrastructure with open and transparent tracking and results. We work in a sustainable, ethical and environmental way. By creating honest expectations and relationships our clients benefit from a first-rate, bespoke service offering.
